PROFESSIONAL SUMMARY

Frontend Engineer with professional experience building responsive web applications using React.js, Next.js, JavaScript, and Tailwind CSS. Currently pursuing an MCA in Artificial Intelligence and Machine Learning at LNCT. Hands-on experience with Python, NumPy, Pandas, Matplotlib, and Seaborn, with active development of AI-focused projects and developer tools. Strong in collaboration, problem-solving, responsive UI development, API integration, and Agile-style teamwork. Seeking Frontend Engineer, React/Next.js, or entry-level AI/Full-Stack opportunities.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS

Programming: Python, JavaScript

Data & Python Libraries: NumPy, Pandas, Matplotlib, Seaborn

AI / ML: AI Chatbots, RAG, Embeddings, LLM Applications, AI Developer Tools

APIs & Tools: REST APIs, Git, GitHub, Postman, VS Code, Chrome DevTools, Vercel, Netlify

Professional Skills: Agile, Team Collaboration, Problem-Solving, Communication, Debugging, UI/UX Implementation

PROFESSIONAL EXPERIENCE

Frontend Engineer — GreedHunter Academy

August 2026 – Present

- Built the GreedHunter Academy web UI from scratch, delivering **5+ core pages** including authentication, dashboard, and admin verification.
- Created reusable UI components and layouts to maintain consistent design and reduce repeated frontend implementation across screens.
- Integrated frontend interfaces with APIs and implemented responsive behavior across devices.

Frontend Engineer — Technobren

February 2025 – May 2025

- Developed responsive React UI components across **2 company platforms**, Gurave and Riham, with a focus on clean design and user experience.
- Integrated REST APIs and implemented dynamic data rendering in React-based applications.
- Collaborated with backend, design, and QA teams to deliver features and address performance and UI issues.

SELECTED ACHIEVEMENTS

- Delivered **5+ core GreedHunter Academy pages**, including authentication, dashboard, and admin verification.
- Contributed frontend features across **2 company platforms** using React, Tailwind CSS, responsive design, and REST API integration.
- Started ClaudeCode, an AI coding-assistant project, to gain practical experience with AI-assisted developer workflows.

PROJECTS

ClaudeCode — AI Coding Assistant

GitHub: https://github.com/Nawabnazar/ClaudeCode

- Building a terminal-oriented AI coding assistant to explore agentic AI and AI-assisted developer workflows.
- Working with a TypeScript and Bun-based project structure and exploring natural-language interaction for coding tasks.

GreedHunter Academy — Company Project

GitHub: https://github.com/greedhunter/greedhunter-library

- Developed the frontend experience for core user-facing and administrative screens.
- Implemented reusable components and responsive layouts with a focus on consistent UI and usability.

Gurave Platform — Company Project

GitHub: https://github.com/Nawabnazar/gurave

- Built reusable React components and integrated dynamic API-driven data.
- Focused on responsive layouts, accessibility, and UI/UX improvements.

Riham Platform — Company Project

GitHub: https://github.com/Nawabnazar/riham-full-version

- Developed and maintained core UI features using React and Tailwind CSS.
- Improved component rendering, responsiveness, and cross-browser compatibility.

CERTIFICATIONS & TRAINING

No formal certifications were provided in the current resume. This section is intentionally kept factual rather than adding an unverified certification.

EDUCATION

Master of Computer Applications (MCA) — Artificial Intelligence and Machine Learning

LNCT | August 2026 – 2027 | Expected graduation: 2027

Bachelor of Computer Applications (BCA)

Veer Bahadur Singh Purvanchal University | July 2022 – 2025 | Graduated 2025 | Overall CGPA: 7.4/10
